

Curious About Today's Air Quality?

SCAN ME

This PurpleAir® Air Quality Monitor measures real-time PM2.5 concentrations. The color of the monitor signifies the current air quality (use the bottom-left table as a guide).

To view the air quality index and explore conditions across the Flathead Reservation, scan the QR Code or visit:

<https://map.purpleair.com/>

Air Quality Index (AQI)	Level of Health Concern
0-50	Good
51-100	Moderate
101-150	Unhealthy for Sensitive Groups
151-200	Unhealthy
201-300	Very Unhealthy
301-500	Hazardous

This monitor was installed as part of the Native Drought Resilience Project—a partnership between the Confederated Salish and Kootenai Tribes of the Flathead Reservation, the Montana Climate Office at the University of Montana, NOAA's NIDIS, Salish Kootenai College, and the Wilderness Society. Flathead Reservation Residents can use the monitors for real-time health and safety assessment. Photos: CSKT, Purple Air
